

Jeevani Group of institutions was institutionalized merely with an upper primary school affiliated to C.B.S.E. and B.ed. college to impart the quality based education to the children of chirawa and surrounding area. Now it is upto 10+2 school and different courses consisting of around 1500 students, who have been facilited to get quality and job oriented education. Since its advent it has been flourishing by leaps and bounds. Our main vision is to make the child intellectually, mentally, and aesthetically strong through education. our institute has also got one feather in its cap adventing the Career and Defence Academy to impart job oriented education. As it has been observed that after passing the matriculation examination the child faces a challenge in making the selection of his career. The Jeevani Career and Defence Academy has found the solution to meet out such challenges having started the foundation courses after 10th.

Our aim is that when a young child enters Jeevani International School and when the same child leaves school, then his direction in life should be defined. If the student is in confusion while leaving school, it should be recognized that there is a serious deficiency in his education. There is an era of 12 years in Indian culture and if any student is directionless even after staying in a school for one era, then it is a matter of serious thinking. It is our endeavor that we can give some abstract to the children, which is necessary for their future, and strive to make the education prevalent in the Jeevani more substantial and life-giving. We have more students from rural background where there is not so much awareness about the career of children in the family and society, it is more difficult for them to work, but we try to give our best.

we are moving ahead with the objective of giving a comprehensive approach and goal-based education. We have set a goal to be united with the future of the student. Similarly, we also know well that many parents are not able pay proper attention to their children due to their personal compulsions. Our responsibility towards such children becomes even more serious. Keeping this in view, we move forward. With your constant support we may build a bright future of your child in coordination with our beliefs and feelings. I myself have also become entirely devoted to this goal and have retired from state services, joined the institute to take Jeevani Group at the zenith level.
